

PNEUMATIC OIL PUMPS FOR OIL SUPPLY – RATIO 1:5

REFERENCE	DESCRIPTION
4LB0905	Oil pneumatic pump, ratio 1:5, for 180-220 litres drum. Suction tube: 860 mm length, diameter 27 mm.
4LB1005	Oil pneumatic pump, ratio 1:5, wall-mounting Fluid suction connection: G 3/4 " M
4LB1805	Oil pneumatic pump, ratio 1:5, for 1500 litres tank Suction tube: 1500 mm length, diameter 27 mm.

TECHNICAL SPECIFICATIONS

Pump system	Pneumatic
Application	Low, medium & heavy viscosity fluids up to SAE 140. Designed for long distances and lubricants.
Max flow (l/min)	Up to 20
Recommended pump distance (m)	1 – 120
Min-max air pressure (Bar)	2 – 8
Recommended air pressure (Bar)	8
Airline connection	G 1/4 " F
Fluid pump connection	G 1/2 " M
